Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 15, 2004 has been entered.

Claims 1-59 are presented for examination on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-59 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 59 are rendered vague and indefinite by the first step recitation in each claim: "preparing a sample of said plant by washing said plant in water, removing roots, outer cortex, and latex fraction". It is unclear by this phrase as to what the sample actually is composed of - e.g., is the sample composed of the plant's outer cortex, latex material, and roots or is it composed of the rest of the plant (i.e., the remainder of the plant after removing the outer cortex, latex material, and roots)? This initial step of the claimed process should be adequately expanded upon so as to clearly define this limitation.

Art Unit: 1654

All other claims depend directly or indirectly from rejected claims and are, therefore, also rejected under USC 112, second paragraph for the reasons set forth above.

The claims remain free of the art. Again, the closest prior art of record is that of Aylward (US 6,432,452 - which corresponds to WO 9908994) which is drawn to anti-cancer agents obtained from sap extracts of three different *Euphorbia* spp., but does not reasonably teach or suggest obtaining or using an anti-cancer extract from *Euphorbia obesa* as instantly disclosed/claimed.

Conclusion

No claim is allowed. As a formal matter, to avoid potential errors in subsequent processing of the instant application (e.g., at Publications), it is requested that the claims be provided in a customary double-space format in response to this Office action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
